ENERGY SOLUTIONS

Introducing Energy Solutions

Managing utilities can be time-consuming and complex. With Energy Solutions, Link Logistics' in-house team of energy experts oversees utility billing and administration on your behalf.

Here's how it works:

- Send a copy of your most recent utility bill(s) to Link Logistics at EnergySolutions@linklogistics.com and note your intent to enroll.
- Our team transfers your utility bills to Link's name.
- Link's experts leverage bulk pricing discounts and energy hedging expertise to decrease your energy expenses and provide utility budget stability whenever possible.
- Review your energy usage and cost savings in real time through your energy dashboard on Link+ — available exclusively to Energy Solutions participants.

Link Logistics' Sustainability team can share tailored solutions to increase your energy efficiency.

Based on your utility data, we'll recommend renewable energy offerings that minimize your carbon footprint.

Energy Solutions lets you get back to running your business while saving you time and money.
